
Senior Security Consultant – Penetration Testing

We are looking for an experienced Senior Security Consultant – Penetration Testing to join our cyber security company.

As a penetration tester for CyberLab, you will be expected to conduct formal tests and simulated attacks on web-based applications, networks, and other types of computer systems on a regular basis.

You will be able to use your technical skills along with industry applications / processes to identify weaknesses and report on the findings. This is a customer facing role and you will be dealing with a range of internal and external clients, it is important that anyone in this role is comfortable with dealing with these clients as well as the technical aspects of the role.

“a great place to work, a great place to be a customer”

The Role:

- Carry out application, network, systems and infrastructure penetration tests
- Review physical security, perform social engineering tests and phishing tests where appropriate
- Evaluate and select from a range of penetration testing tools
- Keep up to date with latest testing and ethical hacking methods
- Provide technical support to the sales team where needed to scope penetration tests
- Report on findings to a range of stakeholders
- Make suggestions for improvements
- Enhance existing methodology material

The Candidate:

- A CHECK Team Leader in Web Applications (Crest or Cyber Scheme)
- Good understanding of application testing – web applications, APIs, thick clients, mobile applications etc.
- Solid technical skills in both information security architecture and penetration testing
- Project planning skills

- A solid understanding of ethical hacking
- Scripting and programming experience is beneficial
- Ability to explain findings to non-technical professionals
- Excellent report writing and presentation skills
- Customer facing skills
- Able to work independently but also as part of a team
- Work with the engineering manager to develop new products and services
- Outstanding organisational and data analytics skills
- Comfortable working in a fast-paced environment

Why join CyberLab?

Diversity, equality, and inclusion is at the heart of our culture and we are passionate about our One Team spirit.

Our continued focus on growth creates opportunity for everyone to progress their career, to develop knowledge and skills, to gain reward and recognition and to maximise their potential. The growth and success of our people ensures the growth and success of our business.

We believe that “if you’re not growing, we’re not growing”.

Salary details: Depending on experience £70,000+

Benefits include:

- Health care support – UK Healthcare, flu jabs, onsite health screens
